

I travel often to San Diego and Los Angeles, CA and Phoenix, AZ. I don't know the local AM or FM stations or the times that local traffic and weather information is broadcast. I get this information on XM Radio. It's a service I pay for and should be able to receive. The NAB's petition 04-160 should be rejected. XM Radio should be able to continue offering this and other information services that the consumer is willing to pay for. John Videbeck, Tucson, AZ
